Keep charging until you hear the DOUBLE BEEP, indicating that the Stimulator is fully charged. You can also check the stimulator battery indicator on the Remote Control to ensure that you have completely recharged your Stimulator’s battery.

Occasionally check the Charger to ensure that it is centered over the Stimulator. Keeping the Charger centered over the Stimulator will ensure the shortest charging time. The Indicator Light may turn amber. This is NORMAL and you may continue charging. If the Charger requires re-charging, it will beep slowly regardless of Stimulator alignment.

WARNING: While charging your IPG, the Charger will become warm. This is considered normal. Handle the Charger with care. DO NOT USE THE CHARGER WHEN SLEEPING. This may result in a burn. Failure to use the Charging Belt may also result in a burn. If you experience discomfort or pain, cease charging and contact Boston Scientific Neuromodulation.

To locate the Stimulator, place the Charger over the implant area and move it around until the beeping stops.

Locating the Stimulator
The Charger will beep continually as it searches for the Stimulator.

Charging Tips
5 Charging Complete
Remove the Charging Belt. Return your Charger to the Base Station.

**Power Supply**

Plug the Power Supply into an outlet and connect to the Base Station.

**Charging the Charger**

Place the Charger in the Base Station. When your Charger is fully charged, the light will turn green.

1. Green light = a full charge  
2. Amber light = a partial charge  
3. No light indicates that a connection is loose.

**Using the Belt**

Plug the Power Supply into an outlet and connect to the Base Station.

Place the Charger in the pouch of the Charger Belt and push the Power Button. Close flap.

To open, undo Velcro® strap and pull through belt loop.

Wrap the Charger Belt around your waist and insert the strap back through the loop.

Pull the strap in the opposite direction and secure the Velcro.

If necessary, you can adjust the other side.

Be sure that the Charger is facing outward.
